Program Information

The **Doctor of Business Administration (DBA)** program is designed for professionals who want to further their career with the most advanced business degree program GGU offers. The DBA program addresses the learning needs and objectives of senior business managers, consultants and university professors. Its primary objective is to produce graduates who can contribute to the advancement of their professions and to the expansion of knowledge and awareness of contemporary strategic issues and practices.

Our curriculum has a three-tiered focus. Students examine current theories, practices, and issues in business; train in research methods; and study the relationships between business and social and global issues. We believe doctoral students must be adept in all these areas to be successful contributors to the expansion of knowledge and improvement of business practices. For the dissertation, students conduct original research on a topic of current importance and personal interest. The dissertation should impact and help illuminate the strategic issues they face in their professions.

The program encourages students to accept the added responsibility of a shared commitment to the advancement of their professions and to upholding the highest ethical standards in the private or public sector.

Program Highlights

Accreditation

GGU is accredited by WASC Senior College and University Commission, the organization that accredits universities in California and Hawaii, including Stanford, University of San Francisco, UC Berkeley, UCLA and more.
